

HOA SOLAR CERTIFICATION FORM
Installation requirement pursuant to Va. Code § 67-701(B).

HOMEOWNER NAME:

PROPERTY ADDRESS:

CERTIFYING DESIGN SPECIALIST

NAME: _____

NABCEP NUMBER: _____

COMPANY: _____

EMAIL/PHONE: _____

Undersigned attests as follows: I am certified by the North American Board of Certified Energy Practitioners and licensed in Virginia. I have completed adequate and independent review of (1) the proposed solar system as proposed by homeowner on Schedule 1, and (2) the solar system as redesigned to comply with HOA restrictions as illustrated in Schedule 2.

I have analyzed the following HOA restriction(s) (*identify applicable HOA restrictions as compared to the originally proposed design, e.g., no solar on front of residence*):

I hereby certify that the constructing the solar system to meet the specifications required by the identified HOA restriction(s) will [*check all that apply*]:

increase the cost of installation of the solar energy collection device by at least five percent over the projected cost of the initially proposed installation.

- Estimated cost increase is \$ _____ which is _____ percent above the cost of the initially proposed installation.

reduce the energy production by the solar energy collection device by at least 10 percent below the projected energy production of the initially proposed installation.

- Estimated production loss is _____ percent.

I so certify pursuant to Va. Code § 67-701.
